Dr. Will Siri  
Donner Laboratory  
University of California  
Berkeley 4, California

Dear Will:

I shall be leaving on my annual trip to the Marshall Islands in about three weeks. I shall be spending some time on Eniwetok where there is a fairly large number of Americans living.

I plan to perform further blood volume studies on some of these people and should like to have your help on total body water determinations using tritiated water. If this is agreeable to you, I shall pick up some of the materials when I go through San Francisco. As usual, I shall require instructions.

I hope Jean and you will be free to spend an evening together. I shall of course contact the Weavers before I leave New York.

With kindest regards,

Sincerely yours,

THE LONG ISLAND JEWISH HOSPITAL
